

EGR COOLER FLUSH

OEMs Recommend 80,000 Miles as the maximum time frame between EGR flushes.

We have what you need!

When service is needed you want to be sure your customer's truck or fleet is maintained regularly and to the specifications of the manufacturer. Northern Radiator provides you with the quality tools you need.

There are other EGR cooler flush products which may be more costly as they are mixed "one to one" where Northern's can be cut to one part cleaner to 3-4 parts water depending on the condition of the EGR cooler. **Some manufacturers recommend 80,000 miles as the maximum time frame between EGR flushes.**

When you need it... *Having the right equipment always makes a job easier. Our EGR flush is ultra concentrated and can last several flushes.*

EGR Cooler Flush - 1 Gallon Z14016

An alkaline detergent formulated to remove carbon exhaust buildup and other contaminants from EGR coolers.

For best results, use with Northern Hydro Gun flush tool to remove all flush!

Northern's 12" or 24" Hydro Gun is the perfect tool for cleaning radiators, charge air coolers or EGR coolers. Northern's Hydro Gun features a Pro-Tec cone nozzle and a heavy duty squeeze trigger air valve with a molded handle. Connects to air compressor and garden hose.

Charge Air Cooler **ISOLATOR KIT**

As an added benefit, Northern Radiator includes isolator kits with some of our most popular charge air coolers.

WHY IS THIS A BIG DEAL?

- **Save \$60-\$125** over OEM kits
- **Protect the newly installed CAC** with new proper mounting rather than using the old, worn out rubber isolators
- **NO ADDITIONAL COST** to you - Savings right in the box!

In addition, these kits are sold individually to replace worn out isolators on Northern's or the OEM charge air cooler!

■ Visit our website or contact customer service to determine the correct isolator kit for your application.
