

Be Ready with Must-Haves for Harvest Season

Keep your customer in the field!

Northern Radiator has the most **complete line of harvest cooling products** when and where you need them. Nationwide stocking locations mean that **your customer can be back up and running** in as little as a day with our stock replacements.

COMBINE RADIATORS

A down combine can equal disaster at harvest time. Debris and dirt can impact the performance of a combine cooling system and ultimately productivity. Northern has the replacement radiator with the right fit to take care of those that are clogged and underperforming.

CHARGE AIR COOLERS

Do you know the signs of needing a new charge air cooler? Does your customer?

Is their engine losing power or using more fuel? Is their coolant temp rising? Replacing a damaged or dirty charge air cooler will save money on fuel and maintenance.

CHARGE AIR COOLER CLEANER > RW0149-5 (5 Gallon) / RW0149-15 (15 Gallon)

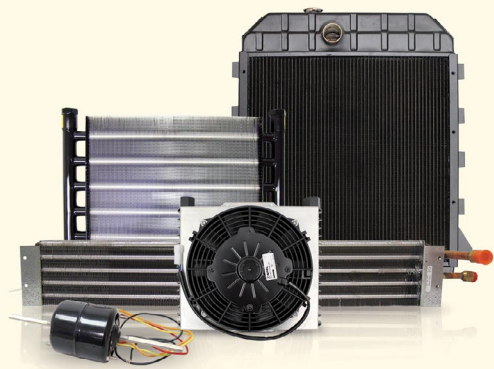

For internal cleaning of charge air coolers. Renews performance and enhances heat transfer

- This product is a combination of an organic orange terpene degreaser and a mild acid cleaner/brightener that removes oil, soot and oxide from the **INSIDE** of a charge air cooler.
- The foaming action blasts away oil and oxidation with cleaning actions **NOT** found in other products.
- This extensively tested cleaner leaves the **INSIDE** of your charge air cooler spotless with the oil, grime and oxidation removed. This product **DOES NOT** harm epoxies, viton rubber, silicone hoses or gaskets.

CONSTRUCTION

Do you service heavy equipment?

Backhoes, Crawlers, and Excavators... But Northern Radiator doesn't stop there and neither should you. Generators, light towers, boom lifts, scissors lifts, and more. Northern Radiator is your complete source!

Products to choose from include:

- Radiators
- Charge Air Coolers
- Evaporators
- Blower Motors
- Oil Coolers
- Auxiliary Heaters

DID YOU KNOW?

It is recommended that radiator caps be replaced every time the coolant is changed or when major cooling system work is performed, such as installing a new radiator.

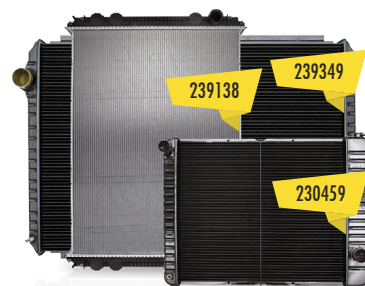

People will routinely change oil, antifreeze, and check tire pressure, but the single most important, and ironically, the least expensive component in your engine's cooling system is the radiator pressure cap. Stock these caps from Northern Radiator, and be sure to change out with every new radiator installation.

Need help selecting a cap?
