Performance Products

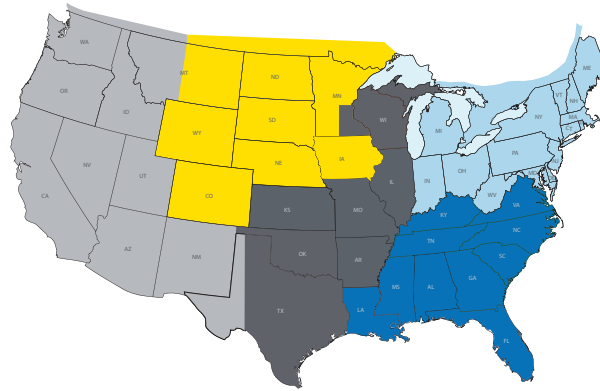

PWM (Pulse Width Modulator)

- Make your brushed fan perform like a brushless
- Allows for a "soft start" to prevent damaging amp spikes
- Made in U.S.A. using top tier component suppliers & circuit boards
- Overload protection limits output to 40A
- Overheating protection with automatic reset
- Compact size for easy mounting

Interchangeable Radiators

- Cover a large variety of dirt and asphalt racing applications with minimal inventory/SKUs
- Interchangeable inlet or inlet/outlet fittings with threaded connections
- All-aluminum, 2 rows of 1" tubes, single or double pass or double pass LS configurations
- Multiple hose connection options
