

THE BOSS Radiators

- We offer 3 row radiators finished with typical GM hose connections or custom radiator kits.
- 3 rows of 1" tubes for high performance cooling. 30% more cooling capacity than any brand of 2 row 1" tube radiator.
- Machined billet aluminum SAE compliant filler neck. These radiators have a 1/4" plugged NPT port.

RACE PRO Radiators

Northern's Race Pro Radiators provide up to 24% improvement in heat transfer over other brands of racing radiators! Our louvered cooling fins are exclusively designed for high performance heat dissipation and feature 2 rows of 1" high capacity cooling tubes. Choose from single, double, or triple pass versions to meet your cooling needs! (Triple pass radiators require a high performance water pump for maximum effect.)

- Machined billet aluminum, SAE compliant filler neck.
- Epoxy-free construction--nothing to crack, chip, or leak!
- All welded construction (no gaskets).
- Extra heavy reinforced die stamped tanks for added rigidity.
- Heavy wall inlet and outlet fittings for secure hose connection.
